touchREVIEWS in Ophthalmology

Established: January 2007 Frequency: Bi-annual
Current edition: Volume 15 Issue 2

Aims and Scope

- *touchREVIEWS in Ophthalmology* enables time-pressured physicians to stay abreast of key advances and opinion in ophthalmic practice.
- *touchREVIEWS in Ophthalmology* comprises balanced and comprehensive articles written by leading authorities, addressing the most important and salient developments in the ophthalmic field.
- *touchREVIEWS in Ophthalmology* endeavours to support physicians, clinicians and related healthcare professionals in continuously developing their knowledge, effectiveness and productivity. The editorial policy has been designed to encourage discussion among this peer group.
- Comprehensive bibliographies for each article mean that *touchREVIEWS in Ophthalmology* is an informative and valuable reference tool for use throughout the year.
- All articles are subject to peer review, and must adhere to the ICMJE, GPP-3 and COPE guidelines.

Structure and Format

- *touchREVIEWS in Ophthalmology* is a peer-reviewed, free-to-access, bi-annual journal comprising review articles, case reports, editorials, special reports, and original research.
- The structure of each edition of the publication comprises section categories determined by the Editor. The degree of coverage assigned to each category is the decision of the Editor, and in part reflects the views of the Editorial Board.
- All articles declare any author disclosures along with any funding, financial support, and medical writing assistance.
- Each edition of touchREVIEWS in Ophthalmology is published in full online at www.touchOPHTHALMOLOGY.com

Editorial Expertise

touchREVIEWS in Ophthalmology is supported by various levels of expertise:

- Guidance from an Editorial Board consisting of leading authorities from a variety of ophthalmic disciplines.
- Invited contributors who are recognized authorities from their respective fields.
- Peer review – conducted by experts appointed for their experience and knowledge of a specific topic.
- An experienced team of Editors and Technical Editors.

Peer Review

- On submission, all articles are assessed by the Editor to determine their suitability for inclusion and appropriateness for peer review.
- The Editor identifies appropriate reviewers, who are selected on the basis of their specialist knowledge in the relevant area, following consultation with a member of the Editorial Board where necessary.
- We aim to have the final peer review decision within 4 weeks.
- Following review, papers are either accepted without modification, returned to the author(s) to incorporate required changes, or not accepted for publication. The Editor reserves the right to accept or reject any proposed amendments om the advice of the Editorial Board and reviewers.

Submissions and Instructions for Authors

- The Editor commissions articles with guidance from the Editorial Board and unsolicited articles are welcomed.
- The Editor is always keen to hear from authors wishing to discuss potential submissions, and will give due consideration to any proposals. Please contact the Editor for
- further details.
- 'Instructions for Authors' is available from www.touchOPHTHALMOLOGY.com

Reprints and Advertising

Reprints are available for all articles (minimum order 500 copies). Please contact hello@touchmedicalmedia.com for more information.

Abstracting and Indexing

touchREVIEWS in Ophthalmology is abstracted, indexed and listed in Genamics JournalSeek, Google Scholar, IndexCopernicus, and Summon by Serial Solutions.

Online

All articles published in *touchREVIEWS in Ophthalmology* are free to access at touchOPHTHALMOLOGY.com.

Society Partners

touchOPHTHALMOLOGY.com has developed very valuable partnerships with the most respected not-for-profit medical societies both in Europe and the US.

These partnerships are key as touchOPHTHALMOLOGY.com helps to promote awareness of these medical societies whilst also providing free-to-access, peer-reviewed articles and multimedia content to society members, which ensures that the industry is kept up to date with the latest cutting-edge content and opinion from world-renowned doctors.

About Touch Medical Media

Touch Medical Media publishes a rich and diverse portfolio of peer-reviewed, free-to-access journals across the clinical and pharmaceutical arenas. Touch Medical Media aims to assist in the education and practice of healthcare and pharmaceutical professionals. ❑
